

One source for complete protection.

Consider our complete protection and reliability as the advantages of the PowerCare program from Cummins Power Generation.

Centralized account management

People

Dedicated, factory PowerCare staff supports the administration and reporting of your program.

Reports

You get a single contact for customer service; fleet management; forecasting and budgeting maintenance costs; maintenance history; repair approvals; invoices and billing history. Monthly reports are available to you via mail or Internet.

Internet

The PowerCare web site allows you to securely view:

- Billing and service history
- Budgeting and forecasting of maintenance expenses
- Maintenance history
- Status of scheduled PM visits and repairs
- Exception reporting

Service support

With over 80 years of experience in power generation service and a network of more than 150 distributor locations throughout the U.S. and Canada, Cummins Power Generation is well-positioned to effectively handle the

maintenance management of your power generation equipment. Our certified and factory-trained professional technicians ensure consistent quality work and documentation. Our emergency call centers can be reached from anywhere in North America 24 hours a day, 7 days a week by calling 866-330-2603 for a rapid, local response.

Why select a national planned maintenance program?

- Peace of mind from a consistent, high-quality program for your entire fleet
- Eliminate administrative burden of managing multiple vendors
- Single point of contact for customer service, maintenance and reporting
- Proactive maintenance management
- Ability to forecast and budget maintenance costs
- Maintain consistent maintenance procedures and schedules
- Increase system reliability
- Maintain factory warranty coverage

PowerCare

> The advantages of preventive maintenance

Our energy working for you.™

Prevent downtime.
Protect your business.

If you're there,
we're there.

Consider it done.
PowerCare features:

Your generator set protects your business from costly and even dangerous downtime. The PowerCare program from Cummins Power Generation provides your business with an extra measure of protection with a complete, well-planned preventive maintenance program.

Be proactive with maintenance management. No matter where you are, Cummins Power Generation distributors staff experienced, certified technicians who cover your generator—no matter where you're located and no matter when you need it.

Truly comprehensive maintenance.

Cummins Power Generation's complete knowledge of your application and fleet assures you of a program designed specifically for your business. It is peace of mind that is efficient and easy to manage across your fleet with a local contact at each of your sites.

All makes. All models.

PowerCare programmed maintenance can cover all your power equipment. And we mean all. Any generator set. Any transfer switch or switchgear.

Simplify. Simplify. Simplify.

PowerCare programmed maintenance delivers confidence everywhere you do business. In a single plant or in hundreds of locations. All through one single contract. The entire program is tailored to your specific requirements.

If you're running it,
we'll protect it.
